## Workshop Description

### Picking the Right MS/HS Courses for Highly Selective College Admissions

Families are often devastated to learn that their child's chances of acceptance to a highly selective college or university were drastically diminished by the courses the student took – as a seventh grader! Come learn about the high school courses that highly selective colleges look for -- and how to ensure that your middle schooler's on the right track to qualify for them in three, four, and five years – from Dr. P. (Dominique Padurano, Ph.D.), an independent educational consultant and Founder and President of **Crimson Coaching™**. Dr. P. recommends that students attend with parents, and that both bring a notebook and pen to the presentation.
